Dear Friends and Colleagues,

It is our privilege and great pleasure to invite you to RehabWeek 2019 that will take place from June 24 to June 28, 2019 in Toronto, Canada. Along with our partners Metro Toronto Convention Centre, Tourism Toronto and Kenes Group, Toronto Rehabilitation Institute as the hosting institution would like to welcome you to Toronto - the most culturally diverse city in the world.

RehabWeek is a well-established and highly reputable biennial conference. In 2017, four societies and more than 1,200 delegates from all over the world joined us in London for the 3rd RehabWeek. This time, we are proud to announce that six reputable societies will be part of RehabWeek 2019. The six participating societies are:

- International Consortium on Rehabilitation Robotics (ICORR)
- International Industry Society in Advanced Rehabilitation Technology (IISART)
- International Functional Electrical Stimulation Society (IFESS)
- American Congress of Rehabilitation Medicine Conference (ACRM)
- Rehabilitation Engineering and Assistive Technology Society of North America (RESNA)
- International Society for Prosthetics and Orthotics (ISPO Canada)

RehabWeek 2019 will address the challenges and opportunities in rehabilitation and bring together colleagues and partners to exchange, debate and network. As the healthcare landscape continues to evolve, close cooperation among clinicians, engineers, researchers, scientists, health practitioners, policy makers, users and industry is essential for making positive changes for our patients and their families, our communities, and the world.

We are excited that we could provide an outstanding international forum to present and discuss progress in research, development, standards, and applications related to the Rehabilitation. RehabWeek 2019 will give everyone an opportunity to share the latest insights of academic and industrial research as well as to experience the unique environment of Toronto. Toronto is the perfect place to unite the most inspiring, innovative, and successful minds in rehabilitation technology.

We very much look forward to your participation and to welcoming you with open arms to Toronto!

Kind regards

ABOUT TORONTO

Toronto, officially the "City of Toronto", is the capital of the Canadian province of Ontario. It is located within the Golden Horseshoe in Southern Ontario on the northern shore of Lake Ontario. It is the largest city in Canada and fourth-largest city in North America by population. Growing at a clip of more than 100,000 new residents a year, Canada’s largest city keeps getting larger. But the continued population boom hasn’t changed Toronto’s character. Long known for welcoming multiculturalism and diversity (more than 140 languages are spoken), the city has also made substantial investments in public transportation and technology, making the city even more attractive to newcomers and Silicon Valley talent. Welcoming over 40 million visitors annually, Toronto is the leading tourism destination in Canada. This bold, dynamic city offers superb attractions, music and events backed by the best convention and sports facilities in Canada.

Transportation
There are many forms of transport in the city of Toronto, including highways and public transit. The city also has an extensive network of bicycle lanes and multi-use trails and paths.

Restaurants
Toronto has a dynamic and diverse culinary scene. Internationally-acclaimed chefs head restaurants like the three-storey Momofuku (a favourite among visiting celebrities), while high-in-the-sky eateries like 360 Restaurant at the CN Tower pair mouthwatering meals with unparalleled views.

Shopping
The city has emerged as a major style destination. Stores abound with luxury designer items, unique vintage finds and top home décor, and high fashion can be found around every corner.

Climate
The climate is continental, with cold winters and warm summers. Although the city is located in the south of the country, winter is cold because the North American continent cools down a lot, and outbreaks of polar air masses are frequent. However, given the exposure to different types of air masses, jumps in temperature are frequent.

Venue
The Metro Toronto Convention Centre is a world-class venue located at the heart of a world-class city, with vibrant surroundings. The central location is walking distance from the Financial and Entertainment Districts, plentiful accommodations, and public transit systems.
